Renton, Washington 98057

January 22, 2008

Wendy Lubahn
IDD Aerospace Corporation
18225 NE 76th Street
Redmond, WA 98052

Dear Ms. Lubahn:

FEDERAL AVIATION ADMINISTRATION - PARTS MANUFACTURER APPROVAL

Per 14 CFR part 21 subpart K, we found design data submitted with your letter dated January 17, 2008 to meet the airworthiness requirements of the regulations for the products on which the parts are to be installed. We based our finding on Identity via licensing agreement. Also, we determined that your company set up the fabrication inspection system at 18225 NE 76th Street, Redmond, WA 98052 as required by 14 CFR § 21.303(h). Therefore, we grant parts manufacturer approval (PMA), which authorizes you to produce the replacement parts in the enclosed Supplement No. 9.

We remind you that the provisions of 14 CFR, noted in our PMA letter of approval dated January 28, 2002 also apply to the enclosed PMA Listing-Supplement No. 9. Please keep the enclosed supplement with the original PMA letter as evidence of approval to produce the parts concerned.

Sincerely,

Wolf R. Caliebe,
Manager, Seattle Manufacturing
Inspection District Office

Enclosure

FEDERAL AVIATION ADMINISTRATION - PARTS MANUFACTURER APPROVAL

IDD Aerospace Corporation
18225 NE 76th Street
Redmond, Washington, 98052

-----END OF LISTING-----					

NOTE: The procedures that are acceptable to the type certificate or TSO authorization holder and their cognizant FAA Aircraft Certification Office, for minor changes to original parts used on type-certificated products, are also acceptable for incorporating the same minor changes on identical FAA-PMA replacement parts. The FAA-PMA holder must show traceability to the TC, STC, or TSO authorization holder on all minor changes incorporated by this procedure. When these procedures are no longer applicable because of completion of the production contract, or termination of the licensing agreement or business relationship, submit all subsequent minor design changes to the PMA parts in a manner determined by the ACO. TC, STC, or TSO authorization holder controls all major design changes to drawings and specifications.
