## BOEING AWARDS IDD AEROSPACE B-777 ILLUMINATED COCKPIT PANELS

**Redmond, WA (March 16, 2005)** - IDD AEROSPACE, a division of the Zodiac Group, announced today that it has received an award from The Boeing Company for preferred supplier status on all Boeing 777 airplane illuminated cockpit panels. This comes as part of Boeing's 5-year extension of IDD's preferred vendor product support contract for the supply of illuminated cockpit panels and integrated switch panels for new Boeing 767, 737, and 747 production aircraft.

The agreement also allows IDD Aerospace to work with Boeing in developing new technologies for cockpit panel lighting and to retrofit older technology. Under separate contracts, IDD Aerospace supplies night-vision compatible illuminated cockpit panels, integrated switch panels and control panels for many of Boeing's military aircraft programs.

"IDD Aerospace is proud to continue supplying Boeing with our products," said Steve Hintzke, President and CEO of IDD Aerospace. "We believe our quality and customer responsiveness has kept the relationship strong, and we look forward to many more successful years working together."

***About IDD Aerospace***

IDD Aerospace is part of the Aircraft Systems Division of the Zodiac Group. The company is located in Redmond, WA and is a leading provider of illuminated light panels, control panels assemblies and integrated switch panels, bezels and keyboards for aircraft flight decks to customers worldwide.
